Center Building Update

We are in the midst of some very complicated water problems at the Center. At first we thought it would be only a few weeks for our building to be fixed and ready for our use again, but unfortunately, we were overly optimistic about the timeline.

The earliest estimates we have for our return to the center are six to twelve months, and we are being told it could take even longer. We continue to work with local professionals to get to the bottom of all of this. We are blessed by several local entities coming to our aid.

We realize our continued operation at the church is a major inconvenience for the church congregation, your child/children, your family and our staff. One of two

church services, and several community entities that use the church space for meetings have been relocated. We have had to combine classrooms and spaces while at the church, and this will have to continue for the remainder of the time we are located here.

This is not an ideal situation for anyone, especially our young kiddos, but it is a challenge we must accept and conquer. If Covid-19 taught us anything, it is that **WE CAN DO HARD THINGS!**
